

The "FM Cat 14K" Radio Station Pre-Wired Kit allows you to be on the air live or with automation which provides for your station to sound live with time checks and local weather reports while giving you up to six days of walk-a-way time. The Six Bay antenna creates 5.62 times gain from the 2500 watt output of the transmitter yielding nearly **14 Thousand Watts** Effective Raditated Power.

Here is what is included...all pre-wired and tested by our engineers

- | | |
|----------------------------------|--|
